

PRESS RELEASE

Oct. 2009

NEW 10 YEAR WARRANTY REINFORCES PREMIUM QUALITY OF WELLMASTER FLEXIBLE RISING MAIN SYSTEM

Geoquip Water Solutions, specialist supplier to water related industries, has announced an exciting pledge from Angus Pipelines, manufacturers of the Wellmaster range. Wellmaster, the original flexible rising main system, now comes with a 10 year manufacturer's warranty*, reinforcing the superior quality of the system.

"This is a significant demonstration of the manufacturer's confidence in the quality of their product and no other 'steel on a reel' comes with the same endorsement," said Mike Deed, Managing Director of Geoquip. "With proven performance in more than 40,000 installations over the last twenty years, the Wellmaster range offers major cost savings and performance advantages."

Available in a wide range of sizes and performance ranges, the Wellmaster system offers exceptional strength and hydraulic efficiency. The major benefits to users include:

- Fast installation and renewal
- Reduced transportation and storage costs
- Reduced operational costs
- Reduced manpower levels
- Long Service Life
- Superior Performance
- Comprehensive Technical Support
- ****NEW** 10 Year Manufacturer's Warranty**

More cost effective than conventional rigid pipe systems the Wellmaster flexible rising main is approved for use with potable water in the UK and many other countries around the world.

The Wellmaster rising main system is ideal for extraction, water supply wells for desalination plants, geothermal, leachate extraction, mine and quarry de-watering, offshore fire protection pumping, scavenger pumping and groundwater stabilisation on building sites.

For more information please contact Mike Deed at Geoquip Water Solutions on 01473 462046 or mike@geoquipservices.co.uk.
